**The Parlor Magazine.**  
J. T. HEDLEY, EDITOR.

THIS Magazine, formerly under the care of  
D. M. Mend, occupies its fourth Volume  
under the editorship of J. T. Hedley, author of  
"Napoleon and his Generals," "Washington  
and his Generals," "The Great Republic," &c.  
&c. We hazard nothing in saying that this  
Magazine is destined to fill a large place in public  
estimation; that it will not only maintain its  
present enviable reputation, but will secure to  
itself a higher popularity, and become the  
companion of many a circle to which it is now  
a stranger, gladdening by its presence, while it  
exerts an influence pure, elevating and health-  
ful. The editor will bend his energies to make  
this the most popular Magazine of the day,  
and while availing himself of assistance from  
the best writers, he will draw freely from his  
own exhaustible store.

It will continue to maintain its high moral  
tone, and nothing will be admitted into its  
columns which will minister to the corrupt pas-  
sions and tendencies of youth, or which the au-  
thor "dying would wish to blot."

The design is to offer the public a Magazine  
containing all the attraction and interest of the  
lighter periodicals, while it moves in a different  
path, and is not exposed to the same objec-  
tions.

It is issued monthly, commencing with May  
containing 32 pages of original matter, printed  
on fine paper, in handsome covers, with a splen-  
did steel engraving, and colored flower in each  
number, with occasional music and is got up in  
every respect in the best style of the art, mak-  
ing a yearly volume of 324 pages, full of choice  
illustrations, and forming an elegant ornament  
to the parlor table, or a rich and valuable pres-  
ent to a friend.

Back numbers and volumes always on hand.  
Price only \$2 per year, in advance. 3 cop-  
ies for \$5. 5 copies for \$12.

The Press and the public are daily awarding  
as the very highest testimonial to the editor's  
ability of our Magazine, and the beauty and  
taste with which it is embellished, placing it in  
the very first rank in every respect, among the  
thousands of which we select the following:

"Mr. Hedley's lively and versatile pen is ad-  
mirably fitted to give a charm to a work like  
this."—*New York Herald.*

"Under the editorial charge of J. T. Hedley,  
the most popular writer of the age, we predict  
still stronger interest will be taken in this al-  
ready well known and valuable Magazine."  
The name of Hedley is a sure guarantee of  
success."—*Farmer and Mechanic.*

"The new editor has infused into it intense and  
absorbing interest into its pages for which his  
writings are remarkable. The work has gained  
in the power which enchains the sympathies  
and rivets the attention, without losing anything  
of its former charm and great moral and  
style."—*Windsor, Canada, Democrat.*

"We wish this Magazine much success under  
its present guardianship."—*Advocate and Jour-  
nal.*

"The editor is well known as one of the most  
brilliant writers of the day."—*American Agri-  
culturist.*

"Their motto is to mingle the beautiful with  
the good."—*N. E. Review.*

"Mr. Hedley contributes to the present May  
number liberally in his usual pleasing style."—*N. Y. Tribune.*

"His talents will add greatly to the interest of  
the publication, and give it a wide and ex-  
tending circulation."—*Christian Intelligencer.*

"This very neat monthly is gaining favor,  
refining and softening the roughness of life, and  
blessing the family where it alights."—*Esto perpe-  
tuo.*

"This is unquestionably the best Magazine of  
its kind in the country."—*Nantucket Enquirer.*

"Beautiful as it is valuable."—*Luthera-  
rian.*

"A few good responsible Agents wanted  
to circulate this work, to whom the best in-  
ducements will be offered."

**ANTI-BILIOUS PILLS.**

A knowledge of the value of these Pills is a  
necessity to bring them into general  
use as a family medicine. Thousands have al-  
ready used them, who give them a decided pre-  
ference. John St. John, the proprietor, is a  
confident of their virtues that he has instructed  
his agents that in case any person after try-  
ing them a trial, does not prefer them to Greg-  
ory's, Lee's, Pater's, and all other anti-bilious  
Pills, he will move in a different path, and

**Look out for SPURIOUS TICKETS!**  
We have been shown a ticket circulated in Whitley county, purporting to be a democratic ticket, but with Mr. Ewing's name substituted for Mr. Rockhill's, for Congress. Similar tickets, we have reason to believe, have been prepared for other counties. Look out for them.

**Whitley County Democratic Central Committee.**—The Central Committee for Whitley County for the present year consists of—A. H. Tyler, S. H. Wanderlich, J. B. Edwards, Horace Tuttle, and Samuel Miner.

**Accident to Hon. J. Pettit.**—We regret to learn that Mr. Pettit was thrown from his buggy, in consequence of his horse taking flight, near the village of West Point, and had one of his legs broken below the knee. At the last accounts he was recovering rapidly.

**THUNDER STORM.**—Our city was visited by a severe thunder storm on Sunday last, about midnight. The thunder rolled awfully—peal following peal in almost unbroken succession, accompanied by the most vivid flashes of lightning. Three buildings were struck; Mr. Sanders' grocery store in Calhoun Street; Mr. Brown's dwelling in the Western Addition; and the spire of the German Presbyterian Church. In the first two but little damage was done, although at Mr. Sanders' the electric fluid struck within three or four feet of some kegs of powder. At the Church some of the timbers were considerably splintered, and a cow and four hogs which were sheltering beneath, were killed.

**FROM MEXICO.**—By late advices we learn that Gen. Scott had notified the Mexican government that a commissioner had arrived from the United States, with full power to treat for peace. Gen. Scott gave the Mexicans until the 30th June to act on the matter, when if nothing was done he would commence his march to the Capital. The Mexican Congress had been convened, but up to the 29th no quorum had assembled. The letter of Mr. Buchanan to the Mexican minister of Foreign Affairs, announcing that Mr. Trist had been dispatched to Gen. Scott's headquarters with power to make peace, and the reply of the Mexican minister, are published in the Mexican papers. By the extract below, from Mr. Buchanan's letter, it will be seen that the course of our government has been such as to give the Mexicans every opportunity to effect a peace, if they had been so disposed; and the continuance of the war, and the losses thereby inflicted on the Mexicans, are entirely owing to the obstinacy with which they have continued to reject our offers:

"The President, anxious to avoid the war now existing, sent a minister of peace to Mexico for this purpose. After the Mexican forces had attacked the army of Gen. Taylor on this side of the Rio Grande, and thus commenced the war, the President, actuated by the same pacific spirit, made repeated overtures to the government of Mexico to negotiate for its termination; and although he has, from the beginning, solemnly declared before the world that he desired no terms but such as were just and honorable for both parties, yet the Mexican government, by refusing to receive our minister in the first place, and afterwards, by not acceding to our overtures to open negotiations for peace, has never afforded to this government the opportunity of making known the terms on which we would be willing to settle all questions in dispute between the two republics. The war can never end whilst Mexico refuses even to hear the proposals which we have always been ready to make for peace.

"The President will not again renew the offer to negotiate—at least until he shall have reason to believe it would be accepted by the Mexican government. Devoted, however, to honorable peace, he is determined that the evils of the war shall not be protracted one day longer than shall be rendered absolutely necessary by the Mexican republic. For the purpose of carrying this determination into effect with the least possible delay, he will forthwith send to the headquarters of the army in Mexico, Nicholas P. Trist, esq., the officer next in rank to the undersigned in our Department of Foreign Affairs, as a commissioner invested with full powers to conclude a definite treaty of peace with the United Mexican States. This gentleman possesses the entire confidence of the President, and is eminently worthy of that of the Mexican government."

In reply, the Mexican minister states that the decision of the affair being reserved to the Congress, Mr. B's note should be immediately submitted to that body, for it to determine what should be done.

Whatever may be the result, one thing is certain; and that is, that our government have throughout been actuated by a sincere desire to bring the war to a close, and spare Mexico the calamities which a continued struggle with us must inevitably inflict on her.

**American Force in Mexico.**—The Union estimates that by the end of July the total American force under command of Gen. Scott and Taylor, will exceed thirty thousand men. At the last accounts 7,500 men were advancing from Vera Cruz, under command of Gen. Cadwallader, Pillow and Pierce, to join Gen. Scott, whose force would when these reinforcements reached him, exceed 15,000. Effective men—a force amply sufficient to take and keep the city of Mexico. Besides these, other troops are arriving daily at Vera Cruz. Reinforcements are also en route for Gen. Taylor's headquarters, and Old Rough and Ready is by this time in a condition to move on San Luis Potosi.

**DEMOCRATS!**—Remember that Monday is the election day. It is the duty of every good democrat to be at the polls bright and early—to deposit his vote—and to see that his neighbors do the same. There are many luke-warm voters, who if not looked after may neglect attending the polls. Scores of votes are lost every year in this way. Let the township committees visit such men, and urge on them the importance—the absolute necessity of their doing their duty to their country. Let every zealous democrat consider himself a committee of vigilance, to attend to such as feel unwilling or unable to go to the polls—provide horses or carriages for those who are unable to walk—use every means to make every man vote—and vote right—and the result will show that they have adopted the best and only serviceable mode of electing. If we can only secure a full vote our triumph is certain.

**AT HIS OLD TRICKS.**—Mr. Ewing has published another abusive and slanderous communication against Mr. Rockhill, in the last Times, containing many of the falsehoods with which he usually embellishes his speeches, and the additional one that Mr. Nelson, the Receiver at this place, has been electing through the district, instead of going to Detroit to deposit his funds; and also that he wrote the letters which appeared in the Sentinel, respecting Mr. Ewing's flying exit from Blackfoot county. As to what Mr. Ewing says against Mr. Rockhill, it is unnecessary to reply. Every one knows that he wrote the communication, and all know what credit to give to any thing he says against his competitor. The charge that Mr. Nelson wrote the letters in the Sentinel, we pronounce unqualifiedly FALSE; they were written by respectable citizens of Jay and Blackfoot counties, and we will prove this by showing the manuscripts to any one who will call and ask for them. And we are authorized by Mr. Nelson to state, that the charge of his electing through a part of the district is equally false; that at the time spoken of he was actually in Detroit, depositing the funds received for the sale of lands; and that this is the only time he has been out of the county since the canvass commenced! Mr. Ewing certainly shows "great energy and force of character" in writing slanderous falsehoods; but we do not think he thereby proves himself worthy the support of his fellow citizens, or that his labors will aid much in his election to Congress.

The editor of the Times, we see follows in Mr. E's wake, and speaks of the Hartford letters having been written in Fort Wayne. We will show him the original letters if he will promise to retract.

The Times has a long article setting forth some imaginary services Mr. Ewing rendered while in the Senate, getting the State of Ohio to furnish his portion of our canal, and says: "It is to his well known energy and force of character, that the public are indebted for the opening of the canal as soon as it was done!" and adds that but for him "it is doubtful whether the canal would yet have been opened to the Lake!" This is rather rich; it is plastering it on rather too thick. There is, however, one thing which Mr. Ewing really did do while in the Senate, which the Times entirely overlooks; and that is, that he and his brother, by their "energy and force of character" were mainly instrumental in having the Canal Land office removed from this place to Peru, and in displacing our late estimable and respected citizen, Maj. Lewis, from his office of Commissioner. For this the friends of Maj. Lewis, and the citizens of Ft. Wayne generally, owe Mr. Ewing a heavy debt of gratitude, which they will pay in full next Monday.

**SPEECHES.**—Messrs Ewing and Rockhill addressed their fellow citizens at this place last Saturday. We were unable to attend, but are informed that Mr. Ewing's speech, was a most ridiculous compound of gasconade, egotism, and blackguardism, calculated to lower him in the estimation of all right-minded persons, and showing that however flippant he may be, he is totally destitute of any qualifications as a public speaker, and unfit to address a representative or deliberative assembly. Mr. Rockhill, on the other hand, delivered a plain, sensible, and forcible speech, and it is generally conceded, that so far as an opinion could be formed from that day's speaking, he would be the most useful and respectable member of the two.

Prior to Mr. Rockhill's taking the stump, the cry of Mr. Ewing and his friends was, that we ought to elect a man who was fitted by education and station in life to advocate our wants and wishes in Congress—and that Mr. Ewing was just such a man. The result shows that so far as native ability is concerned, Mr. Rockhill is by far the most suitable man. He will not bore Congress with so many frothy exhibitions of rambling balderdash as Mr. Ewing would—not will he give his constituents cause to be ashamed of his course; but he is abundantly able to lay out wants before Congress, and plead our cause in a manner that would command the attention and co-operation of his fellow members.

This cry that none but men of education, wealth and high standing are fit for Congress is a regular federal doctrine. For our parts, we think that a plain, practical, sound, common sense old farmer, like Mr. Rockhill, is better calculated to make a useful, respectable member of Congress than a frothy, noisy, self-satisfied like his competitor. And though farmers are not often elected to Congress, we feel confident that in this instance the Tenth District will honor itself by selecting its representative from that hitherto proscribed class, and by so doing will set an example we hope hereafter to see generally followed in this state.

**Coinage at the Mint.**—The amount coined at the mint for the six months ending July 1st, is \$3,206,223. The Union states it has every reason to believe that during Mr. Polk's term of office, nearly sixty millions of dollars were coined. This does not very well agree with the whig croakings, that free trade and the sub-treasury would drain the country of specie.

**MR. EWING A SLAVEHOLDER!**  
The Times denominates our statement that Mr. Ewing is a slaveholder, as "The Slavery Slander," and Mr. Ewing has got out affidavits that the firm of Messrs. Ewing do not own any slaves; but he does not venture to reply to the questions we asked him last week on the subject. The Times further states, that the slaves belong to Mrs. Clymer, wife of a person who, or has been in partnership with Messrs. Ewing; and that we have been hoaxed—and had the story palmed upon our credulity. This all sounds very well; but unfortunately for Mr. Ewing, his affidavits are rendered of no avail by the fact that one of his own witnesses, acknowledged that Col. Ewing took one of the slaves, a female, represented as belonging to Mrs. Clymer, to St. Louis with him, as a servant in his family; but finding she did not suit him he SOLD her! We do not see what service Mr. Ewing's affidavits can be to him, when this fact is known through the district, as it will be before the election day. Mr. Ewing must really have considerable assurance to go through the country, probably spending the very money received from the sale of this poor wretched woman, to electioneer with; and perhaps using part of it to pay for the printing of documents to prove that he is not a slave holder!

**The Coon Skin Bill.**—The Times wants to know if it was not equally bad for Democratic Senators to vote for the Coon Skin Bill as it was for Mr. Ewing to do so. If they were fully aware of the atrocious nature of the bill, and knew that all the allegations against the American Fur Company, on which the bill was founded, were false, they certainly were to blame; but even then they would not be quite so bad in merely voting for a bill which they had no personal interest, as Mr. Ewing in originating it and making the charges set forth in the preamble against the Fur Company, with a full knowledge of their falsity, and with a view of enriching himself not only at the expense of that company but only of the community at large. Those who voted for the bill are however blameable for one thing, and that is, for giving any credence to Mr. Ewing's statements in the matter; but as they did not know that gentlemen as well as the people here, they were not after all so very culpable.

**The Patin the Fire.**—We learn by a gentleman from Grant Co. that the fact of Mr. Ewing's being—or having been—a slaveholder, has made considerable commotion in that county. The abolitionists are justly indignant that a man with the proceeds of the sale of human flesh and blood juggling in his pockets should seek to palm himself off on them as a friend of the cause they so strenuously advocate, and hope to secure their votes by fond hollow pretensions of sympathy for the wrongs of the slave. They see the deception attempted to be practiced on them, and all the efforts of the whigs to gloss over Mr. Ewing's course and conceal or deny the fact that he has been a slaveholder are of no avail. The abolitionists are resolved not to vote for him, and Grant County will give Rockhill a majority of 50 to 75 votes.

Mr. Ewing left here, stealthily on Saturday at midnight to try to pat things to rights, talking with him affidavits that he does not own slaves; but these will not avail him, as it is known that one of his own witnesses has admitted that they did own a slave, a woman, and that she had actually been sold by his brother G. W. Ewing.

**Shameful abuse of the Franchising Privilege.**—About two bushels of Whig and Mexican documents, franked by a Mr. Pendleton, and directed to W. G. Ewing, have been received at the post office in this city within the last week. They have of course been forwarded with a view of operating on our Congressional election. When it is remembered that we have only a semi-weekly mail, carried on horse-back, our readers will agree with us that this is a most shameful abuse of the franchising privilege, and one that merits the execration of the whole community.

The Boston Whig, a leading federal paper in New England, thus speaks of Gen. Taylor's nomination for the Presidency:

"A SETTLED MATTER.—A man whose trade has been war—hunting runaway slaves and the overlanders of Florida, and butchering the poor Seminoles because they harbored the fugitives—and waging the slave drivers' war upon the poor, starving Mexicans—doing it all, I admit, in obedience to orders—doing it all, still voluntarily—and none the less, inferior because legal—such a man must never be President by the votes of the free States."

**Query.**—Is not Mr. Ewing, the whig and would-be abolition candidate for Congress in the Tenth district, a strong "Rough & Ready man"? Has he not hurrahed loudly and lustily for this same man, who is now "waging the slave drivers' war"? And can he after this, have the assurance to ask an abolitionist for his vote?

**Mr. Giddings' opinion of Whig Taylor-Men.**—Mr. Ewing proclaims himself a strong Taylor man, and the whig meeting called at this place to respond to his nomination, endorsed him as an unflinching Whig; besides this he is (although the price received for at least one human being swells the amount of ill-gotten wealth in his coffers) strongly opposed to slavery—at least he tells the abolitionists so. Let him and his friends read the following graphic sketch of such whigs, made by Mr. Giddings, a whig member of Congress from Ohio, in a speech lately made by him at Concord, N. H.:

"Those whigs (says Mr. Giddings) who have got up this movement in favor of General Taylor, knowing him to be a man of infamous character, are men of desperate fortunes, who have become anxious to share in the spoils of office; they are men who would sell their party, their country and their God for an ephemeral success; or to enable them to bask in the sunshine of Executive favor. They have under-rated the intelligence of the people. They believe the masses to be as politically corrupt as those who seek to mislead them. Time will demonstrate their error."

It is proposed to have the whole line of canal as far down as Lodi, or Coal Creek, in Parke county, in operation by the first of August—or in time to permit boats to convey the contractors that disastrous way to the Cayuga letting which is to come off on the 6th of that month, at Torre Haute.—Lafayette Free Press.

## FIRST REGIMENT INDIANA VOLUNTEERS.

The following complimentary letter was addressed by General Taylor to Colonel Drake on the evening of the departure of his regiment. It was in reply to one from Colonel Drake, notifying the General that his regiment was about commencing their march home.

**HEAD QUARTERS, ARMY OF OCCUPATION, Camp near Monterey, Mex., May 23d, '47.**  
Col. J. P. DRAKE:

Dear Sir:—Your very acceptable letter of this morning was this moment handed me. For the approbatory terms in which you have been pleased to speak on your own, as well as on the part of your regiment, of the existing relations between us, as well as the kind feelings which will be carried and cherished to the frontiers of our country, and sweetened with the eve of separating and returning to your homes, in consequence of the expiration of your term of service with the Government, has created feelings which are difficult to express, but which are highly gratifying as well as duly appreciated. I regret it was not your good fortune as well as that of your excellent regiment, to have participated in one, at least, of the hard-fought battles which have taken place since your arrival in Mexico; knowing, as I do, your and your great anxiety to have done so; in which case, I am satisfied, you would not only have acquired fame and honor for yourselves, but for your State and the country; but circumstances over which you had no control prevented it. All must know who are in the slightest degree acquainted with military operations in carrying on a war in an enemy's country, over long lines from their base of operations, and the necessity of cases, that a considerable portion of the troops employed, must be engaged in guarding detachments, keeping open lines of communication, escorting trains, &c., which duties are as important, arduous and dangerous as the duties of those who may be engaged in battle, each depending on the other to insure success, therefore equally honorable to all concerned; and I can bear ample testimony to the zeal, and ability, with which the first Regiment of Indiana Volunteers discharged all the duties referred to, and many others, as well as the fortitude with which they bore up under disease so common and so much to be dreaded by citizen soldiers on their first entering service, especially when suddenly transferred from a northern to a southern climate, more by far than the balls and bayonets of the enemy; also your great desire to be in the advance; all of which is the very best evidence had you come in collision with the enemy, you would have done your duty, and the honor of our flag and country been safe in your keeping.

Be assured, Colonel, you all carry with you my best wishes for a quick and safe journey to your homes, a happy meeting with your family and friends, as well as continued health and prosperity through a long life.

I remain, Truly and Sincerely,

Your obedient servant,  
Z. TAYLOR,  
Maj. Gen. U. S. A.

**STILL ANOTHER LETTER FROM GEN. TAYLOR.**—The Troy Post of the 6th inst. publishes the following letter from Gen. Taylor, which had been addressed to some individual at Lansingburgh. It is evident, from the tenor of all his letters, that he is determined not to be "hoaxed" by the whig party.

**HEADQUARTERS, ARMY OF OCCUPATION, Camp near Monterey, Mex., May 23d, 1847.**

Dear Sir: It is with much pleasure that I acknowledge the receipt of your letter of the 1st inst., and to which I desire to reply in terms more expressive of my thanks to you for your kind consideration for myself, and yet more so of my high appreciation of the upright and patriotic sentiments which are the principal tenor of your letter; but I am burdened with official duties, and at this moment, with many letters from distant sources, which require attention, and will necessarily oblige me to reply to you in a few lines.

The Presidential office presents no inducements to me to seek its honors or responsibilities; the tranquility of private life, on the contrary, is the great object of my aspirations on the conclusion of the war—but I am not insensible to the persuasions that my services are yet due to the country, as the country shall see fit to command them; if still as a soldier, I am satisfied; if in higher and more responsible duties, I desire not to oppose the ardent wish of the people—but I will not be the advocate of any party or cause, and should have no objection at large to place me in the chair of chief magistracy, the good of all parties and national good would be my great and absorbing aim.

Sentiments such as these, have been the burden of my replies to all who have addressed me on this subject, expressing the assurance that by the spontaneous and unanimous voice of the people alone, and from no agency of my own, can I be withdrawn from the cherished hope of private retirement and tranquility with peace shall return.

Please accept, with this my brief reply, the warm appreciation and high consideration of Yours, most sincerely,  
Z. TAYLOR, Maj. Gen. U. S. A.

**RAIL-ROAD MEETING.**

There will be a mass meeting of the citizens of Delaware and the surrounding counties held in Mexico, on FRIDAY the 20th of AUGUST, NEXT, for the purpose of taking into consideration the propriety of connecting the line of the Western and Erie Canal with some point south. The object of the meeting is of great importance to the people of Northern Indiana, and should command their serious attention and early action. The vast amount of trade of interior Indiana, in the present state of conveyance suffers materially, and no sooner do we remove the inconveniences under which we labor, than we open a channel through which wealth and business will flow in upon our country, and the rich and fertile valley of Upper White River will develop her great natural resources, which are inferior to no portion of the country. Indeed, until some improvement can be accomplished by which we can have those advantages of conveyance possessed by others, we must expect to remain in the back-ground, far behind our neighbors, with less natural advantages perhaps than they have.

Let us let us awake to a sense of our condition and our duty. Let the meeting on the 20th of August, be an earnest of the feelings of the people on this subject. Let it show that they not only see the clog that hangs on the wheels of their prosperity, but that they can and will remove them, and that without delay.

The Greenville, Winchester, Richmond, Cambridge City, New-Castle, Greenfield, Indianapolis, Marion and Fort Wayne papers will please copy.—Muncie Journal.

The American Mail Steamship Washington did not make as short a passage as was expected, as she did not arrive at Southampton Tuesday, the 15th ult. at two o'clock, P. M., having been out about four days. Many of the passengers on our country were disappointed at the length of the voyage, and about one hundred left the steamer at Southampton. It appears that shortly after she left New York, it was discovered that the "hot wheels and waste pipe" were so small and could not free the condensed water, which reduced the vessel's speed. Twelve hours were lost during the passage, by stopping to amend this defect, and repair the wheels.

## CURE FOR SUMMER COMPLAINT.

**BLACKBERRY SYRUP.**—We re-publish the recipe for making the famous Blackberry Syrup, which has already appeared two or three times in our columns. It is perhaps one of the best remedies for the Summer Complaint or Cholera Infantum, in existence, and we would recommend all parents to preserve the recipe, and when blackberries are ripe, make a bottle or two of the Syrup. Besides being so good in case of sickness, it is pleasant to take at any time:

"To two quarts of blackberry juice, add half an ounce each of powdered nutmeg, cinnamon and allspice, and a quarter of an ounce of powdered cloves. Boil these together to get the strength of the spices, and to preserve the berry juice. While hot, add a pint of fourth proof brandy, and sweeten with sugar, until sufficiently thick to make a rich syrup. Give a child two teaspoonful three times a day, and if the disorder is not checked, add to the quantity, and give it more frequently.

**Buffalo and Mississippi Railroad.**—A pamphlet of over one hundred pages has been published, containing the report of Geo. K. Baldwin, Civil Engineer, of Charleston, Mass. The survey was principally made during the last year, and the report is replete with valuable and interesting statistics. The route surveyed is from Toledo, the western point of Lake Erie, through the northern part of Ohio and Indiana to Michigan city, and thence around the southern shore of Lake Michigan to Chicago, making a distance of 230 miles. From Toledo a straight course to thence to Chicago, it follows the course of the lake. Mr. Baldwin considers the road as perfectly feasible of construction, the natural obstacles being slight in comparison with some of our eastern routes. The total expense in round numbers, including the necessary motive power and cars, is estimated from four to five millions of dollars, according as the 56 lbs. or the 80 lbs. rail is employed. The advantages of the proposed route, as soon as the requisite amount of stock is subscribed, the work will commence. It needs but little reflection to convince any one of the great utility of the proposed road and the certainty of its ultimate construction and success.

The astonishingly rapid increase of agricultural productions of this section of country, which must find an eastern market, together with the immense crowds of emigrants constantly thronging westward, make it absolutely certain that the proposed road will prove a most profitable investment of capital. The report shows that the road will pay at the outset, and that, if it be built with extra stability, it will preclude all competition. This report also contemplates a road from Toledo to Cleveland, and thence to Buffalo, connecting with some one of the eastern roads, and making a grand and continuous chain of railroad communication from the Atlantic to Chicago of 1100 or 1200 miles, as New York or Boston is made the terminus. This plan, even as it now seems, must be regarded as by no means visionary, and the day cannot be far distant that shall witness its accomplishment.

**Newspaper Postage.**—Newspapers (says the N. Y. Express) now can be sent from the office of publication without prepayment of postage; and we presume at the ordinary rates of postage, in the same manner as is sent to newspaper subscribers. If this is not so, more than the old rates are demanded, it is in the power, as we have already said, of any person to whom a paper is thus sent, to hold the Postmaster refusing to deliver that paper, at the ordinary rates, responsible for the detention, before a justice of the peace.

**FRENCH MURDER.**—The Defiance Democrat contains an account of the murder of a child of Mr. Scamp, of Williams county, by a young man named Heckethorn, who was arrested, and gave the following reason for the act:

"That last week a fortune teller by the name of Andrew Tyler, hired him, and was to give him fifty cents per day, and pay the expenses to accompany him in his travels, and to begin, he must possess this child, and hide the body, the Sunday following, which was last Sunday. That then they would leave the County for sometime, and wait until the excitement had died away, come back, and Scamp would give him something handsome to find his lost child by his magic art. Tyler gave him some poison in a stick of candy; and on Saturday he induced the little fellow to go to the woods with him. He gave him the candy; in a few minutes the child's face began to grow black, and in fifteen minutes after he had given him the candy, he was dead."

These were symptoms of poison; but in addition to them, the skull was found to be broken by a blow from a bludgeon. The man Tyler was also arrested.

This evening's southern mail brings us further interesting intelligence from Gen. Scott's camp and from the capital. We take it for granted that the General will not wait (as has been suggested at New Orleans) to receive orders from Washington before he marches onwards. A letter has been received in this city from Vera Cruz, of the 8th inst., stating that General Pierce would march with his detachment (about 2,500 troops) on the 10th inst. It says nothing further about the columns of Childs, Cadwallader, and Pillow, and we presume, therefore, that they had recently met with no serious opposition. Gen. Scott, it is reported in the newspapers, had sent out a detachment to meet them.—Union, July 22.

Among the passengers in the Caledonia, which sails to-day for Liverpool, is J. F. D. Lanier, Esq., of Indiana, who goes out by the direction of the Governor of that State, to illustrate the surrender of the State bonds under the provision of the law of last winter, in cases where parties in Europe have not already availed themselves of the law; thus saving the risk and expense of transmitting the bonds across the Atlantic. Eight and a half millions of the bonds out of eleven millions, have already been surrendered here.—N. Y. Journal of Commerce, July 16.

**MAINE.**—The Legislature of Maine has passed a law, by the provisions of which a plurality will hereafter elect members of Congress and County officers. They have also passed, by the requisite constitutional majority, an amendment of the present constitution, providing for the election by a plurality, of Governor and members of the State Legislature, both Senate and House. The former will be submitted to the people at the election in September next, when it probably will be adopted.—Boston Advertiser.

**Reinforcements for General Taylor.**—The steamboat Salazar, arrived in port last night with four companies of the 4th regiment of Indiana volunteers, en route for Mexico, to join General Taylor. This detachment consists of companies A, Capt. John A. Wallace, B, Capt. Jesse J. Alexander, C, Capt. Wm. F. Baldrige, D, Capt. Edward Lander. The whole under the command of Col. George W. Belknap, who behaved with distinguished gallantry at the battle of Buena Vista, in command of the Indiana rifles. The colonel made but a short stay at home, being called by the unanimous voice of this regiment to be its commander—a call that he did not feel at liberty to decline. The steamboat M. B. Hamer also arrived last night, bringing down the second division

of the 4th regiment of Indiana volunteers, under the orders of Lieut. Col. Dumont. This detachment consists of companies E, Capt. Michael Fitz-Gibbon; F, Capt. John W. Crooks; G, Capt. Daniel Landerman. Neither looking body of men more accomplished, nor more ready to do duty, than these. When placed at the command of the veteran Taylor, if they cannot "conquer a peace," they will deceive their looks.

**N. O. Delta, July 4.**  
**Postage Reform in Germany.**—Letters from Frankfurt say that a radical reform of the system of postage will be speedily effected in the German states. The following are the basis of the new system: 1. The free passage of the mails from state to state, without obstruction or delay. 2. A daily mail everywhere. 3. Mails to follow the shortest route as far as possible. 4. A uniform rate of postage, and as low as possible.

**Treaty of Commerce between America and the Zollverein.**—The journals of Northern Germany state that the treaty of commerce recently concluded between the United States, Hanover, and Oldenburg, will be followed by one between the United States and Zollverein. They even say that the state of Prussia has agreed to such a treaty has been settled between Mr. Buchanan and the Prussian minister Baron Gerolt, and only await the signature of divers states forming the Zollverein.

**EDITORS.**—An Editor's duties, even in a case comparatively unimportant, are enormous and thankless; those he praises, "love him less than their dinner;" and those he finds fault with, "hate him worse than the devil." If he steps out manfully, he can hardly avoid treading on some body's toes, who will make a point of never forgetting it; while those on whom he bestows commendation, (even if nothing more substantial,) during his journeys, will quietly place it all to their own merits.

**DIED.**—In Indianapolis, on the 17th inst. in the 36th year of her age, Mrs. MARTHA ANN, consort to Gov. James Whitcomb.

On Wednesday evening last, aged 38 years, Mrs. MARY DEKAY EDSELL, widow of the late John Edsall of this city.

On Monday last, aged 7 weeks, Samuel, infant son of Edward D. and Margaret Bartlett of this city.

We are about to present through the columns of this paper to our readers, sick or well, whatever they may be, a series of weekly notices, concerning that celebrated medicine, which has made so many and various cures, and has been in vogue in every country during the past five years. Vaughan's Vegetable Lithontriptic Mixture is the article to which we allude. We frankly say that we have been astonished at the success of the article, and further, that we believe it has great value, or it would not have established the name for itself which it certainly has. We are not one of those who believe human nature is so easily gulled, as many are apt to imagine, and a worthless nostrum cannot sustain itself five years in the face of the question, "here is a solution brought from a letter shown us by the agent." "I thought I would test the article myself for weakness of the kidneys, before introducing it. A single small bottle instantly relieved me. I then offered it to my customers for all kinds of complaints, and resolved to test it severely. I was astonished at its results in all cases, and must subscribe to the doctrine of a universal remedy." Dated Oxford, Ohio, July 18, 1846. I. A. Adams, Druggist. Reader go to the Agent, get a pamphlet, and learn more of the location of our depot, and his advertisement of Great American Remedy.

**NEVER KNOWN TO FAIL.**—Dr. Osgood's INDIA CHOLAGOGUE.—The following extract is from the farmers' and emigrants' Hand Book, a valuable work of about 500 pages, recently published by Messrs. Appleton and Co., New York. In chapter 8, page 235, the author speaking of Fever and Ague, remarks: "There is a most valuable medicine sold in most of the Western cities, which we can conscientiously recommend for Fever and Ague, and other bilious diseases; it is the INDIA CHOLAGOGUE, which is prepared by Dr. Osgood of New York, who has made the bilious disorders of the West his special study. We are no friends to those medicines usually called patent, but we have had ample opportunities of knowing the invaluable effects of the Cholagogue in bilious cases."

The speedy and permanent relief afforded by the Cholagogue, arises from its prompt and healthy action upon the blood, cleansing it from bile and restoring it to purity. Thus striking at the root—its tendency is not simply to suppress disease, but to remove the cause, on which it depends. It is equally adapted to all ages and all conditions of the system.

From the Kenton Republican.  
I. L. ST JOHN'S ANTI-BILIOUS PILLS.—By reference to our advertising columns it will be seen that these very valuable pills have found their way into our midst. We are somewhat acquainted with their virtues, and hesitate not in recommending them to the public.

## FOR SALE.

THE Valuable Mill property belonging to Fairfield & Freeman 12 miles south of town. This property consists of a Fouring mill with three Saw Mills, with a house attached to it to make shingles, lath, and put in other machinery. Also, a dwelling house, stables, house for Country customers, and every convenience, and about 9 acres of land and another privilege on the East side of the River. This stream affords a plenty of water at any season of the year, and its situation makes it the best mill property in the west.

Mr. Freeman's health is so poor he cannot attend to the business, and not being convenient for me to attend, as I live so far off, &c., the payments will be easy, as I am not much in want of money. I should like to keep a shot in the locker. Persons wishing to purchase please call on the subscriber.
